The Tech

Vol. XXV. No. 20. BOSTON, MASS., FRIDAY, NOVEMBER 10, 1905 Price Three Cents.

FIELD DAY.

List of Men Who Will Take Part in Tomorrow's Events.

All the men who will participate tomorrow in the three contests between the Sophomores and Freshmen and in the Cross-Country race, have been finally chosen from the large amount of material which has turned out.

The rules which must be observed by all officials, participants and others, were published in the last issue of The Tech.

The east end of the bleachers tomorrow will be reserved for the cheering section of 1908, the west end for 1909.

The 1908 Football line up will be as follows: Smith, l.e.; Glover, l.t.; Childs or Ellsworth, l.g.; Allen or Thurlow, c.; Daddow or Regnall, r.g.; Ellis, r.t.; Correll or Joslin, r.e.; Soule or Williams, q.b.; Barnes, l.h.; Boylston or Putnam, r.h.; Heilman or Wemple, f.b.

HAROLD EATON
Capt. 1909 Football Team.

CROSS COUNTRY RACE.

The following men will represent Technology in the Cross Country Race with Harvard on Field Day: Adams '06, (captain), Beam '07, Callaway '08, C. S. Clapp '08, P. J. Clapp '06, Howard '06, G. H. Ruggles '06, H. J. Ruggles '08, Sullivan '08, Tompson '07. The first six men of each team to finish will score.

NOTICE.

Field Day Marshals are requested to report on the field at 2 o'clock sharp tomorrow afternoon.

B. E. A. DINNER.

The British Empire Association will hold its first annual dinner at the Union, Wednesday night, November 16. It is very important that every British subject should attend. New men at the Institute will be doubly welcome. Tickets may be obtained by leaving a note at the Cage for M. E. Denny, and it will also help very much if the price of the dinner ($1.00) is deposited at the Cage at the same time.

PROF. WILHELM OSTWALD.

Prof. Wilhelm Ostwald of the University of Leipsic, gave the first of a series of lectures on "The Historical Development of Physical Chemistry" in 22 Walker. He traced the history of chemistry from the time of the ancients up to modern times. The remainder of the lectures will be given in German.

CLASS MEETINGS.

Sophomores Told That Order Must be Preserved at the Theatre.

M. A. Coe, '06, spoke to the Sophomore Class last Wednesday noon about preserving order at the Park Theatre during the performance Saturday night. He said that after last year's affair with the police the Institute could not afford to do anything which would cause unfavorable comment in the press, and he urged every man to do his best to uphold the reputation of M. I. T.

A few matters of minor importance were brought up for discussion, but all final action was postponed until Friday's meeting. President Weinz announced that all matters dealing with Field Day would be arranged at the next meeting, and he called on every man in the class to be present then.

1909 CLASS MEETING.

Following Dr. White's talk a meeting of the Freshman Class was held. A resolution not to *begin* any rough house Saturday night at the Theatre was passed.

An opportunity was given to those who had not already done so to sign the Constitution, and after some practice in cheering the meeting came to an end.

COMMUNICATION.

Owing to the character of the performance at the Park Theatre, where Saturday evening's celebrations will be held, it is strongly advised by the Senior and Junior Classes, that the underclassmen strictly observe the agreement made with the management of the theatre, namely: "There shall be absolutely no cheering except between the acts and everything shall be conducted in a gentlemanly manner."

This is not a matter which concerns the underclassmen alone, as the good name and honor of the whole Institute are at stake. Any act resulting in a disturbance will reflect grave discredit upon Technology.

It is now up to every man personnaly to uphold this agreement.

Signed,

For Senior Class,
Maxwell A. Coe,
Herbert L. Williams,
Geo. M. Henderson,
William J. Knapp.

For Junior Class,
E. H. Packard,
J. H. Leavell,
William L. Woodward.

WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., REAR

Tech may well be proud of the results of the recent state election in that Hon. Eben S. Draper, a distinguished member of the Institute's corporation, was elected to the high office of Lieutenant-Governor of Massachusetts.

The rushes which will occur tomorrow after the scheduled events afford every underclassman an opportunity to take active part in the contest. But while the rushes are entirely safe when properly conducted the participants must all realize that there is great danger of injury if they are continued after anyone has fallen. Remember, then, when some one yells, "Down," stop shoving and get into line again before the others are ready.

"Down."

Tomorrow is Tech's day. Some of us have our Junior Prom and the Seniors (good luck to them) have their Class Day and Commencement, but tomorrow is for all Tech. The Cross Country run with a Harvard team comes first perhaps to bring out our Tech feeling, then follow in quick succession the track events and the football game with the tug-of-war to provide some part for every Tech man athletically inclined. Every man in the Institute should feel it as much his duty to be out to support his class or his friends on this day as it is to attend courses. One he owes to his intelligence, the other to his fellowship. Then, too, there can be no doubt that no day in the year can provide so much genuine fun and enthusiasm as Field Day. You owe it to yourselves to get out and cheer; fill your lungs with air, and your hearts with enthusiasm. Let Field Day, 1905, set a date to reckon from.

Technology's Day.

The present outlook for the Cross Country Association indicates one of the most successful cross country seasons in its history. The admission to the Intercollegiate Cross Country Assocsation this fall is a decided step forward, and several preparatory runs have been scheduled. The first of these comes tomorrow, when Tech meets Harvard. During the past two years, Tech has won with comparative ease, winning first place each year by a long margin.

Cross Country.

The team has sustained one serious loss in Lorenz, 05, who was captain for two years, but all the others who competed last year are back, and are running in better form than heretofore. The prospects for victory are bright. We extend our best wishes to the team in this, their first preliminary race.

LOWELL INSTITUTE.

Mr. St. Clair Bradley of Painswick, England, delivered the second of a series of eight lectures on "Ancient Rome in the Light of Recent Discoveries," in Huntington Hall, Wednesday evening, at 8 P.M. About two hundred people attended, showing much interest in the lecture. This is the Fourth Course of the Lowell Institute; the remainder of the lectures come on the following Mondays and Thursdays.

TECHNIQUE 1907.

The competition for the Cover Design of *Technique* 1907 will close on Friday, December 1, 1905, at 5 P.M. All designs must be left at the Cage for the Art Editor of *Technique* 1907, before that hour. The size of the cover will be the same as of *Technique* 1905 and 1906. The design must be in one color, or white, and gold on a background of a color to be chosen by the competitor. The contest is open to any member of the Institute. A prize of $10.00 will be awarded to the competitor whose design is selected for use. All other art work for *Technique* 1907 must be in before Jan. 1, 1906. Freshmen and Sophomores are urged to send in drawings for the book.

TALK BY DR. WHITE.

Dr. White, the medical adviser for Technology, gave his first lecture on "Personal Hygiene" in Huntington Hall, Wednesday afternoon, at half past three o'clock.

He spoke of bathing, exercise, clothing, of the proper care of the eyes and ears, of the amount of sleep required, and finally with regard to the use of alcohol or tobacco.

In speaking of bathing he limited his remarks to the cold bath as a stimulant, and said that, for young men at least, warm baths were not often desirable.

Dr. White spoke only of the exercise used as a means of keeping up one's general health. With regard to clothing he said that wrapping up excessively was to be avoided. He spoke of the proper arrangement of light for reading, and the care of the ears. Eight hours of sleep he considered a minimum requirement. Many will need more.

After a few words about the treatment of sleeplessness, he spoke of the use of alcohol and tobacco. He said that while in moderate amounts their use is only occasionally the cause of serious trouble their use means in all cases a slight handicap, at least, in favor of the man who does not use them.

Dr. White's next talk will be on "What to Do in Emergencies," and on minor complaints, such as colds.

COURSE FOOTBALL.

In spite of the fact that the Course I men in 1907 were denied the pleasure of playing off a game of football on Monday with the Miners of the same class, their ambition to play ball has not abated in the least.

They continue to practice signals and are doing their best to arrange a game with somebody for next Monday. Probably Course VI will supply an opposing team.

Late Wednesday afternoon those most interested in the Civil Engineering Team were approached by a representative of the Freshmen with the request that a game between those two teams be arranged for an early date. The matter rests undecided at the present writing.

Course I is certainly trying to make history for itself in athletics and if its men fail to raise a crop of bumps and bruises it won't be their fault.
